Audit Management Software (continued)

Audit Management Software Definition

Audit management software helps companies streamline their audit processes and comply with regulations or internal policies. Audits are conducted to assess an organization's operations, compliance with internal policies, or compliance with specific regulatory standards and frameworks.

Audit management software is used to define, implement, and monitor auditing procedures for multiple purposes, including internal audits. Ideally, such tools should also be able to plan, conduct, and report on the results of standard or customizable audits.

Audit management software can be used by many different stakeholders. Audits typically involve input and collaboration with individuals across the organization, including internal auditors, compliance officers, risk managers, security teams, safety managers, and financial teams. They can also be conducted by external auditors.

Audit management software should clearly define the roles and expectations for those involved in the audit and manage the process through to completion. These tools can be used in any industry but are most common in highly regulated industries such as finance, healthcare, and manufacturing. They are also highly used in businesses that involve protected information and are held to specific regulatory requirements such as SOX, ISO 27001, ISO 14001, and ISO 45001. Many products support internal audit frameworks such as ISO 9001 and regulations built from ISO 9001.

Although similar, audit management software is distinct from [financial audit software](#) which serves a specific purpose and follows a different process than most other audits. Audit management software also overlaps with [security compliance software](#), but the latter may not support collaborative audit and remediation actions across departments. Those products also may be limited in their capabilities to support and manage custom audits.

Audit management is also different from [inspection management software](#) and [quality management software \(QMS\)](#) because while those products audit sites and processes for compliance, they typically do not support audits to demonstrate compliance with specific regulations such as ISO 13485, 21 CFR Part 820, AS9100, and IATF 16949.

To qualify for inclusion in the Audit Management category, a product must:

- ▶ Plan and execute internal audits and audits that align with specific regulations and frameworks
- ▶ Capture complete information on who audits what, and when
- ▶ Align and collaborate with different internal and external stakeholders within a single platform
- ▶ Monitor auditing processes and recommend corrective actions
- ▶ Report audit outcomes for internal or external audiences

(Audit Management Software continues on next page)

Audit Management Software (continued)

Audit Management Grid® Scoring Description

Products shown on the Grid® for Audit Management have received a minimum of 10 reviews/ratings in data gathered by August 12, 2025. Products are ranked by customer satisfaction (based on user reviews) and market presence (based on market share, seller size, and social impact) and placed into four categories on the Grid®:

- ▶ Products in the Leader quadrant are rated highly by G2 users and have substantial Market Presence scores. Leaders include: [AuditBoard](#), [Vanta](#), [Workiva](#), [Scrut Automation](#), [Secureframe](#), [Sprinto](#), [Thoropass](#), and [SafetyCulture](#)
- ▶ High Performing products have high customer Satisfaction scores and low Market Presence compared to the rest of the category. High Performers include: [Scytale](#), [Apptega](#), and [Strike Graph](#)
- ▶ Contender products have relatively low customer Satisfaction scores and high Market Presence compared to the rest of the category. While they may have positive reviews, they do not have enough reviews to validate those ratings. Contenders include: [TeamMate+](#), [IBM OpenPages](#), [Hyperproof](#), [Resolver](#), and [Diligent One Platform](#)
- ▶ Niche products have relatively low Satisfaction scores and low Market Presence compared to the rest of the category. While they may have positive reviews, they do not have enough reviews to validate those ratings. Niche products include: [Ncontracts](#), [Protecht](#), [FloQast](#), [VelocityEHS Accelerate | EHS & ESG](#), [LogicGate Risk Cloud](#), [heyData](#), [SAI360](#), [Ideagen Internal Audit](#), [Onspring](#), [Ostendio](#), [LogicManager](#), [ZenGRC](#), [CertCrowd](#), [StandardFusion](#), and [Acuity Risk Management](#)

Grid® Scores for Audit Management Software

The table below shows the Satisfaction and Market Presence scores that determine product placement on the Grid®. To learn more about each of the products, please see the profile section.

Leaders

	# of Reviews	Satisfaction	Market Presence	G2 Score
AuditBoard	1219	98	83	91
Vanta	542	99	79	89
Workiva	503	73	85	79
Scrut Automation	326	91	52	72
Secureframe	180	82	56	69

LogicGate Risk Cloud	43	34	41	38
heyData	61	38	36	37
SAI360	37	29	37	33
Ideagen Internal Audit	86	18	46	32
Onspring	23	21	41	31
Ostendio	22	48	13	31
LogicManager	17	31	29	30
ZenGRC	43	33	24	28
CertCrowd	10	46	6	26
StandardFusion	34	26	26	26
Acuity Risk Management	13	27	5	16

* Products are ordered by G2 Score. Satisfaction score is used as a tiebreaker if two products have the same G2 Score.

Grid® Methodology

Grid® Rating Methodology

The Grid® represents the democratic voice of real software users, rather than the subjective opinion of one analyst. G2 rates products from the Audit Management category algorithmically based on data sourced from product reviews shared by G2 users and data sourced from third parties.

Technology buyers can use the Grid® to help them quickly select the best products for their businesses and to find peers with similar experiences. For sellers, media, investors, and analysts, the Grid® provides benchmarks for product comparison and market trend analysis.

Grid® Scoring Methodology

The Grid® Report for Audit Management | Fall 2025 is based on reviews collected through August 12, 2025. We apply unique algorithms to this data to calculate Satisfaction (v4.0) and Market Presence (v7.0) scores for the Fall 2025 report quarter. To view the Audit Management Grid® with the most recent data, please visit the [Audit Management](#) page. For more details on Grid® Scoring, please view the [G2 Scoring Methodology here](#).

Grid® Categorization Methodology

Making G2 research relevant and easy for people to use as they evaluate and select business software products is one of our most important goals. In support of that goal, organizing products and software companies in a well-defined structure that makes capturing, evaluating, and displaying reviews and other research in an orderly manner is a critical part of the research process.

To manage the process of categorizing the software products and the related reviews in the G2 community, G2 follows a publicly available [categorization methodology](#). All products appearing on the Grid® have passed through G2's categorization methodology and meet G2's category standards.

Many terms that appear regularly across G2 and are used to aid in product categorization warrant a definition to facilitate buyer understanding. These terms may be included within reviews from the G2 community or in executive summaries for products included on the Grid®. A [list of standard definitions](#) is available to G2 users to eliminate confusion and ease the buying process.

Rating Changes and Dynamics

The ratings in this report are based on a snapshot of the user reviews and third-party data collected by G2 up through August 12, 2025. The ratings may change as the products are further developed, the sellers grow, and as additional opinions are shared by users. G2 updates the ratings on its website in real time as additional data is received, and this report will be updated as significant data is received. By improving their products and support and/or by having more satisfied customer voices heard, Contenders may become Leaders and Niche sellers may become High Performers.

Trust

Keeping our ratings unbiased is our top priority. G2 follows defined community guidelines to ensure privacy, and authenticity for users and reviews. For more details, please view the [G2 Community Guidelines here](#).

(Grid® Methodology continues on next page)

**Net Promoter, Net Promoter System, Net Promoter Score, NPS and the NPS-related emoticons are registered trademarks of Bain & Company, Inc., Fred Reichheld and Satmetrix Systems, Inc.

Grid® Methodology (continued)

Grid® Inclusion Criteria

All products in a G2 category that have at least 10 reviews from real users of the product are included on the Grid®. Inviting other users, such as colleagues and peers, to join G2 and share authentic product reviews will accelerate this process.

If a software is not yet listed on G2 and it fits the market definition above, then users are encouraged to [suggest its addition](#) to our [Audit Management category](#).

Product Profiles

Product profiles and detailed charts are included for products with 10 or more reviews.

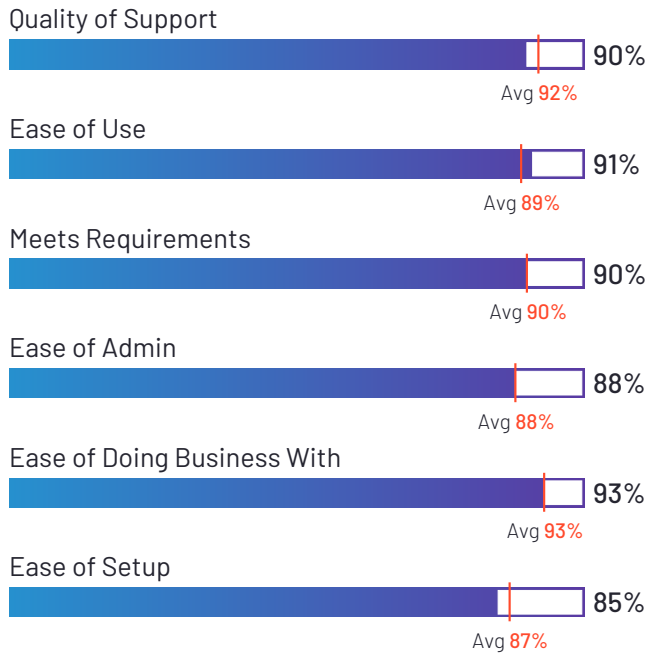

AuditBoard

4.6 ★★★★★ (1,325)

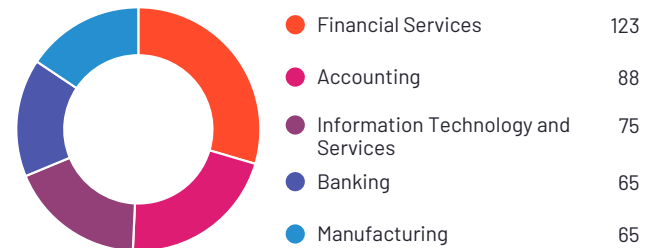

AuditBoard has been named a Leader based on receiving a high customer Satisfaction score and having a large Market Presence. 98% of users rated it 4 or 5 stars, 96% of users believe it is headed in the right direction, and users said they would be likely to recommend AuditBoard at a rate of 92%. AuditBoard is also in the Security Compliance, Enterprise Risk Management (ERM), Third Party & Supplier Risk Management, Regulatory Change Management, IT Risk Management, and Environmental, Social, and Governance (ESG) Reporting categories.

OSTENDIO

Ostendio

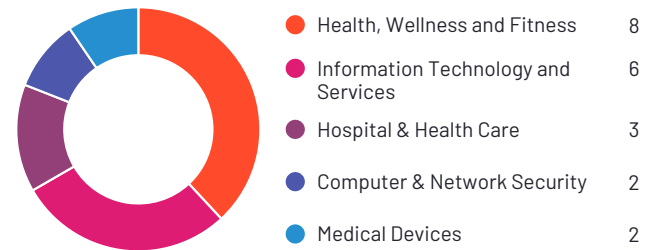

4.8 ★★★★★ (40)

Ostendio has been named a Niche product based on having a relatively low Satisfaction score and low Market Presence compared to the rest of the category. While they may have positive reviews, they do not have enough reviews to validate those ratings. 100% of users rated it 4 or 5 stars, 92% of users believe it is headed in the right direction, and users said they would be likely to recommend Ostendio at a rate of 95%. Ostendio is also in the Security Compliance, Vendor Security and Privacy Assessment, Enterprise Risk Management (ERM), and IT Risk Management categories.
