

START SMARTER. ACT FASTER. MANAGE RISK BETTER.

Crowe Risk Curator + the AuditBoard Connected Risk Platform

In today's evolving risk landscape, organizations are faced with critical questions: Where do we start? Are we tracking the right risks? Do our teams speak a common risk language? Are the right controls in place? What metrics are best to measure our impact?

The partnership between AuditBoard and Crowe provides organizations with a streamlined, intelligent path forward — offering both the tools and the guidance to transform how risk is managed across the enterprise.

CHALLENGE

Organizations often struggle to:

Know where to begin in building a risk management program.

Ensure controls and key risk indicators (KRIs) are relevant and effective.

Access comprehensive, organized risk libraries.

Align teams through a common risk taxonomy.

SOLUTION

Crowe Risk Curator and AuditBoard

Risk content that accelerates success

Access over 1,700 industry-specific risks, 2,800 controls, 8,000 testing procedures and document requests, and 200 key risk indicators enables organizations to:

- Establish initial risk and process taxonomies.
- Build risk and control libraries.
- Facilitate risk identification and risk and control assessment across the enterprise.
- Construct workpapers and control test procedures.
- Analyze merger and acquisition risk.
- Conduct risk-based planning for new initiatives, products, and services

Technology that powers efficiency

A robust platform with a holistic, data-driven, and collaborative approach to risk management that enables organizations to:

- Save time and increase engagement with configurable risk assessments.
- View, manage, and monitor all controls in one centralized location.
- Track metrics like KRIs and KPIs to measure risk exposure and performance.
- Align risk and business objectives to stay focused on the most critical risks.
- Streamline risk event intake with custom fields and templates that power better data-driven decisions.
- Identify and assess risks proactively with seamless Risk and Control Self-Assessments (RCSAs).

The partnership

Crowe and AuditBoard bring expert services and innovative technology together to deliver seamless, scalable, and impactful risk management.

Expert teams

Benefit from a cohesive team that provides both best-in-class risk content and hands-on implementation support.

Tailored solutions

Build a customized risk management approach by combining Crowe's extensive content library with AuditBoard's flexible, intuitive platform.

Ongoing support

Stay ahead of change with continuous access to updated risk content, regulatory guidance, and evolving best practices informed by real-world application.

The key features

Risk library

Thousands of curated risks to leverage in ERM programs to ensure coverage of top risks.

Control library

Design and implement testable, auditable controls tailored to your environment.

Test library

Design & operating test plans to help organizations document the execution of controls.

Metrics

Leverage meaningful metrics that link risk to outcomes and performance.

Workflow automation

Simplified risk documentation and assessment processes within the AuditBoard platform.

Training and support

Comprehensive training resources and ongoing support to facilitate effective risk management.

The results

Together, our service and technology offering empowers you to build a connected, intelligent, and scalable risk program so you can spend less time chasing data and more time making strategic, risk-informed decisions.

Enhanced risk visibility

Organizations gain a clear view of existing risks, allowing for more informed decision-making.

Improved compliance

Access to up-to-date content aids in meeting regulatory requirements and industry standards.

Increased efficiency

Automated workflows reduce manual effort, enabling teams to focus on strategic risk management activities.

Tailored risk management

The ability to select and implement specific risks and controls that align with organizational objectives.

A risk-aware culture

Training and resources help build a culture of risk awareness throughout the organization.
